

## FirstLine® PLT UPS

In the event of an AC power failure, the FirstLine® PLT UPS will automatically transfer to battery power and continue to provide power without any interruption for the full amount of time you select. When power returns, the FirstLine® PLT UPS will automatically recharge the batteries for the next unexpected power outage or disturbance.

### AC Input Performance

FirstLine® PLT is a further evolution of the FirstLine® series with the added advantages offered by an IGBT-based rectifier/inverter assembly. This feature reduces the impact of the UPS on the local supply and simplifies installation where there is limited power capacity in the form of available electrical supply rating or generator size. FirstLine® PLT is classed as a “Zero Impact Source” and provides:

- Low input current distortion— <1 % (THDi) @ full load
- High input power factor 0.99
- Power walk-in function that ensures progressive rectifier start up
- Delayed start up phased with the return of mains power supply, when several UPS are connected in the system.

Also performs the role of a high performance filter, protecting its upstream power supply sources from any harmonics and reactive power generated by the loads powered.

### Main Characteristics

- Front access only
- Efficiency up to 94%
- Reduced weight
- Double electronic and galvanic protection of the load from the battery

The entire FirstLine® PLT is suitable for a wide range of applications thanks to the flexibility of configurations, accessories, options, and choice of performance levels. The UPS is compatible with capacitive loads, such as blade servers, without any reduction in active power, ranging from 0.9 lead to 0.8 lag and

up to 0.8 capacitive power with a low derating equal to 15% of the active power (kW). Efficient and reliable power supply for mission critical applications is guaranteed by operating in redundancy and power parallel mode with up to 4 units (N+1).

### Battery Care System

FirstLine® PLT uses the Battery Care System which optimizes battery performance while extending battery life.

### Flexibility

FirstLine® PLT models can be supplied from two power circuits, dual feed configuration, rectifier input and bypass input. This increases the resilience of the UPS system.

# Staco FirstLine PLT UPS Technical Specifications

UPS Rating kVA/kW	10/9	15/13.5	20/18	30/27	40/36	50/45	60/54
<b>Input</b>							
Topology	On-Line Double Conversion						
Voltage	208Y/120 VAC, Three Phase, 4 wire plus ground, 208VAC, 3 wire (Delta) or 220Y/127VAC configurable from the front panel 480Y/277 VAC 4 wire plus plus ground or 480 VAC, 3 wire (Delta)						
Range	+15% / -20% Battery Discharge @ -15% with full load						
Frequency	60/50Hz +/- 5.0 Hz						
Power Factor	0.99 at 100% load, 0.98 minimum at 50% load						
Current Distortion (THD)	<1% @ 100% Load, <2% @ 50% Load, <5% @ 10% Load						
Input Current A (208Y/208Y)	Nominal: 28 Maximum: 33	Nominal: 42 Maximum: 49	Nominal: 56 Maximum: 65	Nominal: 83 Maximum: 97	Nominal: 111 Maximum: 130	Nominal: 143 Maximum: 172	Nominal: 172 Maximum: 206
Input Current Inrush	Walk-In from 25% maximum to 100% full load rating in 5 seconds						
<b>Output</b>							
Voltage	208Y/120 VAC, Three Phase, 4 wire plus ground or 220Y/127 VAC configurable from the Front Panel or 480Y/277 VAC, 4-wire						
Static Voltage Regulation	+/- 2%						
Voltage Transient Response	Voltage transient response shall not exceed the following, and shall recover to 95% within 10 milliseconds: a) <5% RMS for 100% step load      b) +/- 1% (loss or return of AC input)						
Frequency (inverter synchronous)	60/50Hz (tracks frequency of static bypass source) +/- 0.5, 1.0, 2.0, 5.0 Hz (user settable)						
Frequency Slew Rate (inverter synchronized to static bypass)	Adjustable 0.1 to ± 10 Hz per second						
Free Running Frequency (on battery or asynchronous)	60/50Hz +/- 0.01Hz						
Voltage Distortion THD	Less than 1% (Linear load), less than 2% with crest factor 2.5 to 1						
Inverter Overload	125% for 10 minutes, 150% for 60 seconds						
Bypass Overload	400% for 10 seconds, 1000% for half line cycle						
Bypass Input – Range Synchronization Voltage	+12% / -15%						
Bypass Input Frequency Tracking Range	+/- 5Hz						
Overall Efficiency	Up to 94%						
Output Current (A)	28	42	55	83	111	139	167
Heat Rejection (BTU/Hr) @208VAC	3,412	5,118	6,824	10,237	13,649	21,000	25,000
<b>Battery</b>							
Battery Type	Internal Sealed Maintenance Free Lead Acid VRLA - 36 Batteries, Center Tap Design (NI-CAD available).					External Battery Cabinet - 36 Batteries, Center Tap	
Voltage	432 volts DC nominal, 486VDC float						
<b>Environmental</b>							
Altitude	De-rate load capability above 1000 meters, 1% per 100 meters						
Operating Temperature	40 °C Maximum						
Audible Noise @ 3 feet "A" weighted scale	61dBA				<75 dBA		
<b>Dimensions and Weights*</b>							
H" x W" x D" / [mm]	72.41 x 23.13 x 34.48 / [1839.3] x [587.4] x [875.7]					76.75 x 34.13 x 34.48 / [1949.5] x [866.9] x [875.7]	
lbs. / [kg]	Minimum 659 / [299] Maximum 1179 / [807]				Minimum 659 / [299] Maximum 1889 / [857]		Minimum 850 / [386] Maximum 1860 / [844]
<b>Communications</b>							
SNMP/WEB (Optional)	SNMP Card & UPS PowerView Pro Shutdown and Monitoring Software for Windows/Novell						
Modbus	Monitoring & Control via RS-485/RTU Protocol/Read Holding and Write Registers!						
<b>Standards</b>							
Agency	UL listed to 1778, CUL to CSA C22.2, NEMA PE-1, ASME, ASA-C-39.1-1984, FCC Part 15 Subpart J Class B, NEC, OSHA, IEEE587, ANSI C 62.41-1980, ISO9000

## Two Year Warranty

### Electronics:

A full **2 Year On-site Warranty** (Continental U.S.)

### Battery:

**Three (3) Full Year, Limited Warranty,** on the Battery System ensures that your batteries are protected from system failure now and in the future. *(Warranty provided by battery manufacturer.)*

Extended warranties, customized service plans and preventative maintenance are also available. *Please refer to our warranty statement for complete details.*
